Projects

LIBRARY MANAGEMENT SYSTEM

<https://github.com/rohithvankadaru/LibraryManagementSystem>

JAVA | SPRING BOOT

- Library Management system used in Colleges and Institutions
- In this application we can add authors and books related to that author.
- A registered student will automatically assigned a card which is valid throughout his college life.
- Using the card he can take away the books for maximum of 15 days, where he will receive a realtime mail when issued.
- He will receive the return mail when book returned.
- If he returned the book after 15 days, he will be fined @ 1/- per day where fine amount will be also mentioned in mail.

CHAT ROOM

<https://chat-room-zurq.onrender.com/>

EXPRESS JS | HTML | CSS | JAVASCRIPT

- Chat Room is a full stack application where people can enter room just by giving their Username and have their conversation.
- Communication between client and server is done using Socket IO.
- An intractive UI is made for chat room page.
