

# VANKADARU ROHITH PANDU RANGA RAO

 [7036009709](tel:7036009709)  [rohith3a4@sasi.ac.in](mailto:rohith3a4@sasi.ac.in)  [Rohith\\_vankadaru](https://www.linkedin.com/in/Rohith_vankadaru)  [rohithvankadaru](https://github.com/rohithvankadaru)

Applying as a fresher for a Software Developer role, with a strong grip on Data structures and Algorithms. Seeking to leverage my expertise in Java programming (with emphasis on OOP), Spring Boot, MVC, and basic knowledge of MySQL and JPA/Hibernate. Committed to delivering efficient and innovative software solutions while continuously expanding my skills and contributing to the success of the organization.

- Solving Aptitude

## PROJECTS

### E\_COMMERCE - JAVA | SPRING BOOT [Github\\_Link](#)

- e-commerce application where a customer registers to order items
- a consumer can add his items to cart and order them through order api.
- customer is supposed to update the cart or delete items from cart.
- a seller can register in it, to add products and have a great business.
- Seller can update product details.
- seller can update product prices.
- Both customer and Seller can update their personal details.

### LIBRARY MANAGEMENT SYSTEM - JAVA | SPRING BOOT

[Github\\_Link](#)

- Library Management system used in Colleges and Institutions
- In this application we can add authors and books related to that author.
- A registered student will automatically assigned a card which is valid throughout his college life.
- Using the card he can take away the books for maximum of 15 days, where he will receive a realtime mail when issued.
- He will receive the return mail when book returned.
- If he returned the book after 15 days, he will be fined @ 1/- per day where fine amount will be also mentioned in mail.
- A student is supposed to update his details.

## ACHIEVEMENTS

- Solved 100+ problems on Leetcode.
